SUPERIOR-STRENGTH TRUCK WEIGHING

As the name implies, Cardinal's Armor® Truck Scales provide you with superior-strength, long-life steel construction for optimum vehicle weighing. The Armor's durable baked-on, anti-corrosion tan powder paint stands the test of time. The NTEP legal-for-trade Armor® arrives fully-prepared for installation and includes DB75000 lb stainless steel load cells standard, which are factory assembled. A wide selection of Armor® capacities, platform sizes, and types are available from Cardinal Scale.

Each Armor® scale bridge features interconnecting load blocks and receivers for an efficient, no-bolt installation. Rodent protection is standard throughout the scale via conduit integral throughout each scale module. Every Armor® truck scale is 100% assembled and tested in the Cardinal factory before shipping to your location.

SMART DESIGN. BUILT STRONG.

The Evolution of Truck Scale Construction Durability

Cardinal Scale's truck scale manufacturing experience dates back to the 1930's, and the Armor® is a result of continuous improvements in building USA-made long-lasting, high-capacity vehicle scales.

- USA-made stainless steel load cells and junction box.
- Junction box controls in the scale house or at the truck scale.
- Single source supplier for all optional equipment such as weight indicators, remote displays, and software.
- Concrete or steel deck models.
- Optional grain dump modules.
- NTEP legal-for-trade up to 14 ft. wide.
- Anti-corrosion industrial tan powder paint compliments any environment.
- Arrives fully-prepared for installation.

The Armor's Reliable Double-Link Suspension System

- Ships pre-installed from the factory
- Facilitates free-floating deck
- Self-centering (even distribution of load)
- Stainless steel USA-made load cells
- Minimal jacking for service or repair
- No load cell rotation under load
- Heavy-duty construction
- Hardened wear components for long life

ARMOR® FEATURES

The Armor® features standard rodent protection via both rigid and flexible steel conduits, making it a snap to wire.

Slide-in guide rail brackets

HIGH-CAPACITY LOAD CELL COMPONENTS

The Armor's load cell stands ship from the factory already installed to allow for rapid installations out in the field.

EASY-LIFT, NO-BOLT ACCESS COVERS

Heavy-duty cover plates allow access to the load cells and junction box while providing total protection of components.

OPTIONAL STURDY GUIDE RAILS (steel deck shown)

The steel deck Armor® features flush-mounted, drop-in, no-bolt guide rail brackets standard.

MACHINED PRECISION MANUFACTURING

The Armor's interconnecting scale decks are fabricated with precision-cut machined components for exacting quality.

ADDITIONAL EQUIPMENT

SNAPSTREAM WIRELESS SYSTEMS

SnapStream is a fully-integrated NTEP legal-for-trade wireless truck scale system that can save on installation costs.

ICAN DIGITAL JUNCTION BOX

The iCan intelligent junction box features analog to digital conversion for real-time load cell diagnostics and monitoring.

UNATTENDED SYSTEMS / WEIGHT INDICATORS

Cardinal offers a selection of USA-made weight indicators and unmanned weighing systems to compliment your scale.

REMOTE DISPLAYS - TRAFFIC COORDINATION

Cardinal's giant SB500 has 5-inch-high, dual-row LED digits for long-distance visibility of truck scale weights up to 250 ft.
